MIT | Academy of Engineering
(An Autonomous Institute Affiliated to Savitribai Phule Pune University)

DHARMALE VINIT NILESH

B.Tech. - Electronics and Telecommunication Engineering

Ph: +91-7385108154
Email: 202401070200@mitaoe.ac.in
Daryapur, Maharashtra, India - 444803

PROFESSIONAL SUMMARY

B.Tech student in Electronics and Telecommunication Engineering at MITAOE. Interested in C++, Data Structures and Algorithms (DSA), and software development. Solved 200+ problems on LeetCode and worked on academic projects in IoT and embedded systems. Always eager to learn new skills and improve technical knowledge.

KEY EXPERTISE

C++ Programming | OOP | DSA | SQL | Embedded | IOT

EDUCATION

MIT Academy of Engineering, Pune 2024 - 2028
B.Tech. - Electronics and Telecommunication Engineering | CGPA: **7.73** / **10**

Adarsha Highschool,Daryapur 2024
12th | MSBSHSE | Percentage: **70.50** / **100**

Adarsha Highschool,Daryapur, Daryapur 2022
10th | Maharashtra State Board of Secondary and Higher Secondary Education | Percentage: **79.20** / **100**

PROFESSIONAL EXPERIENCE

Anantam Aerials and Robotics | Consumer Electronics / Appliances | Electronics And Telecommunication Engineering 15 Jun, 2026 - 15 Jul, 2026

Student Intern (SIP Intern)

Key Skills: C++ Programing | IOT | Embeded System

Completed a 120-hour Student Internship Program (SIP) at Anantam Aerials and Robotics from June 2026 to July 2026.

- Learned about Drone Technology, IoT, Robotics, Sensors, and Microcontrollers.
- Learned the basics of Embedded Systems, Wireless Communication, and Automation.
- Understood how sensors, controllers, and software work together in real-world applications.

PROJECTS

IoT-Based Smart Water Level Monitoring and Control System 25 Sep, 2026 - 02 Oct, 2026

Key Skills:

Internet of Things (IoT) | Embedded Systems | C/C++ Programming | Hardware-Software Integration | Water Level Monitoring

Project Link: https://drive.google.com/file/d/1z3pHeWEp-Xi3YuG8KV8HXP1E_BJPRgj3/view?usp=drivesdk

• Developed a smart water level monitoring system using a microcontroller and sensors.
• Displayed tank status on an LCD and monitored it remotely using Blynk IoT.
• Gained practical experience in IoT, Embedded C/C++, sensor interfacing, and hardware integration.

Chat-Server Application 01 Jul, 2026 - 20 Jul, 2026

Key Skills: C++ | OOP | Socket Programming | Multithreading | Linux

• Developed a multithreaded chat server using C++ and socket programming.
• Enabled real-time communication between multiple users.
• Implemented group messaging to broadcast messages to all connected users.
• Supported private messaging between specific users.
• Used OOP concepts and multithreading to manage client connections efficiently.

ACHIEVEMENTS

- • Solved 200+ problems on LeetCode.
- • Solved 300+ coding problems on Codolio.
